

Dear Parents,

2022-2023

In order to maintain compliance with the U.S. Department of Agriculture, Union Christian Academy is required to maintain an Integrated Pest Management Plan (IMP). As a part of this plan we must keep a log of any student that has a hypersensitivity to any pesticide. If your child has a hypersensitivity to any pesticide, herbicide, or any other chemical please fill out the form below, list any SPECIFIC pesticides, herbicides or chemicals and return to the school.
